CONNECTION

THE *SMART* ICE HOUSE HAS ARRIVED!

SMART ICE HOUSE

POWERED BY

iN-Command[®]
CONTROL SYSTEMS

GLOBAL CONNECT

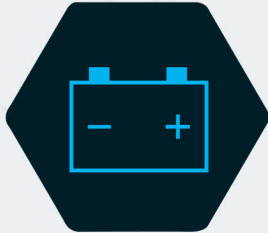

Now you can bring the power of home automation to your Yeti. Powered by iN-Command Control Systems, our new touchscreen allows you to control mission critical functions of your Yeti from our 7" touchscreen and your mobile device via BlueTooth. For ultimate convenience combine the iN-Command Global Connect with our WiFi antenna and control your Yeti from anywhere in the world.*

**cell service required.*

TOTAL COMMAND AT YOUR FINGERTIPS

CONTROL & MONITOR YOUR HOUSE ON YOUR PHONE, FROM ANYWHERE!*

VOLTAGE

Monitor your Yeti's battery voltage. Includes low voltage phone notification system!

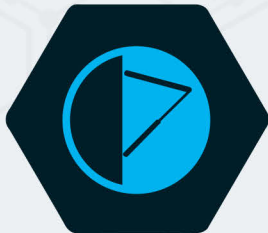

LIGHTS

Control an array of lights inside and outside of your Yeti, including dimmable light zones.

HVAC

Control your heat and air conditioning, including the ability to set schedules for day and night.

MOTOR FUNCTIONS

Control your power awning, in and out, as well as your bed lift, up and down.

WATER

Turn your water pump on and off.

TANKS

Monitor the fresh water tank, as well as the black and gray tank levels in real time.

STAY CONNECTED WITH 4G LTE

Connect the Winegard AIR 360 + Antenna and the Winegard Gateway 4G LTE WiFi Router with iN•Command's Global Connect to take full remote control of your Ice House from anywhere.*

Winegard AIR 360+ Amplified Omnidirectional VHF/UHF & FM Antenna

- Standard on 8' wide houses
- Optional on 6.5' wide houses

Winegard Gateway 4G LTE WiFi Router

- Optional on all houses
- Powered by cell SIM card (Verizon, AT&T)
- Simply add a line to an existing plan
- Data plans are also available via Winegard

*cell service required
